The 8th AMEDD TASS Conference (TASSD, TRADOC Update)

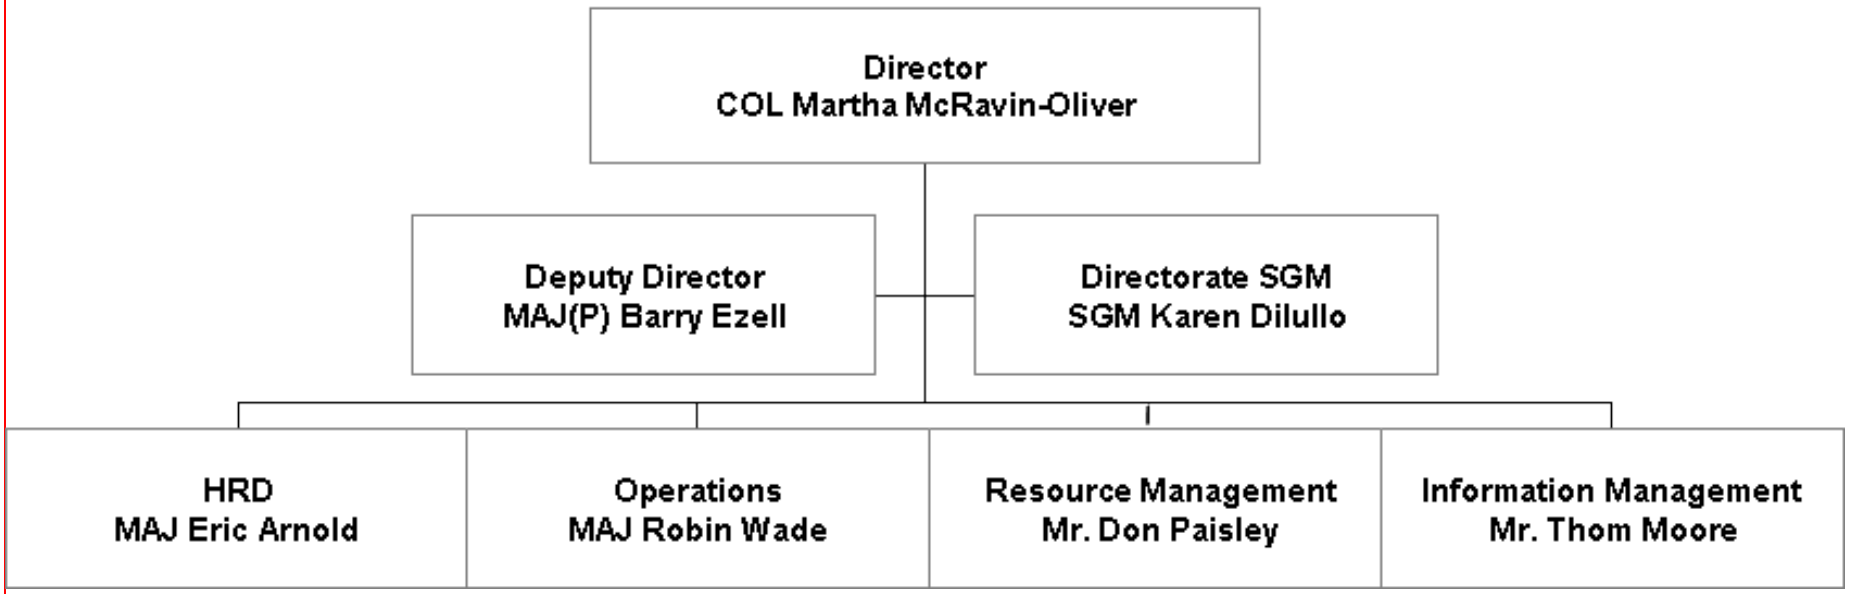
By

COL MARTHA McRAVIN-OLIVER
28 February – 1 March 2005
San Antonio, TX
757-787-3910
mcravin-oliver@monroe.army.mil

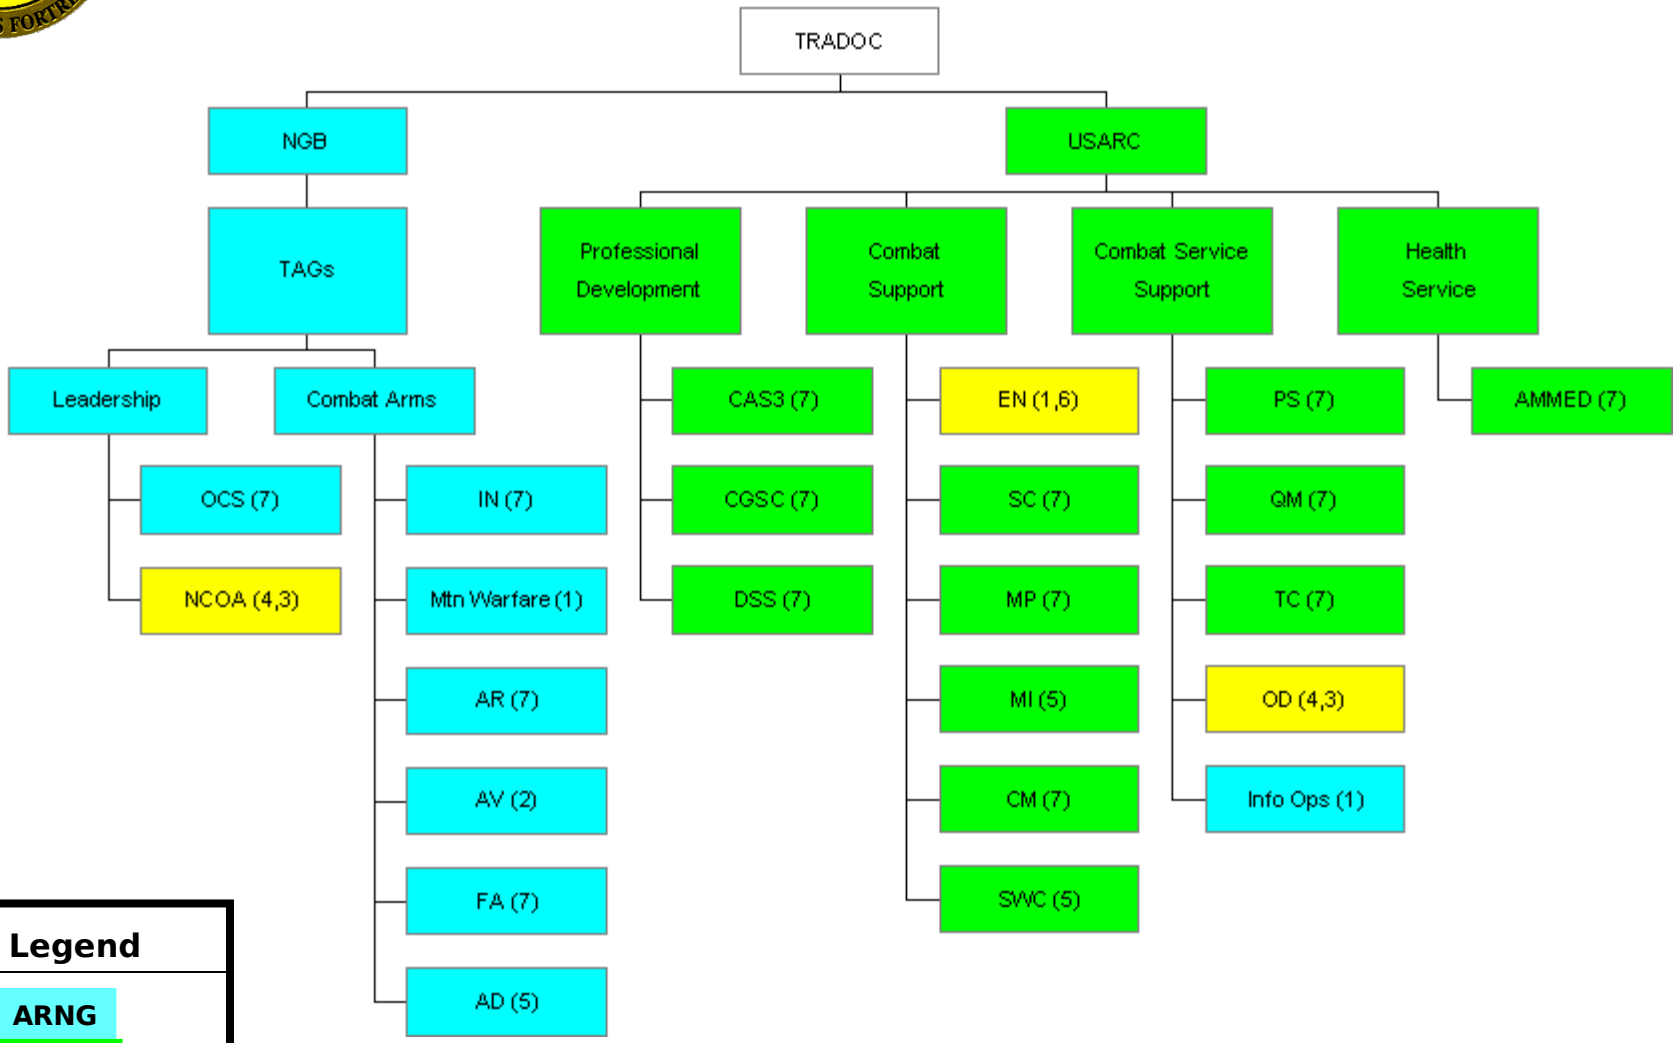
Purpose

- To inform you about current TRADOC initiatives in TASS and the Title XI Program:
  - 91W Reclass
  - DMOSQ
  - TASS Rebalance
  - RCGO Conference
  - TXI Reductions

TASSD Leader Team



TASS Organization



Legend

ARNG

USAR

ARNG / USAR

32 TRADOC Proponent Schools and 138 RC TASS Battalions 303 AC Title XI Soldiers and 8,082 RC Instructors

Issue: 91W Reclass

(NOVEMBER 2004 FORSCOM DMOSQ TRIFORD-RC Critical Enlisted MOSs)

- TASS has a problem with RECLASS 91W due to AMMED authorization of schools to teach? Am told the issue is significant.

91W Reclass Response

- TASS Health Services Bn – What's Available
  - AMEDD TASS Health Service Battalions: 8
  - Training sites: 55
  - Non-conducted training sites: 15
  - Quotas: 1034
  - Reserved Sets: 150
  - Inputs: 25
  - School Cancels: 92

DMOSQ Task Force

- TASSD directed by CG TRADOC to coordinate and develop with RC
- TF Developed 4 COAs
  - Initiative #1: To develop The Army Training System Courseware (TATS-C) within 1 RC training year.
  - Initiative #2: TASS conducts multiple starts per year.
  - Initiative #3: Re-organize/re-structure The Army School System (TASS)
  - Initiative #4: To reduce OBC Backlog by implementing policies to Military Junior College students to attend OBC upon commissioning
- Priorities of effort are Initiative #1, 4, 2, 3.
- All Initiatives ON TRACK

DMOSQ Update

- Initiative 1 on track: there were 18 TATS-Courseware exceeding one year, reduced to 14.
- Initiatives 2-3 on track: TASSD is working with NGB and USARC to develop funding and structure changes to support multiple course start dates. TASS Rebalance Workshop held 22-23 Feb 05.
- Initiatives 4 on track: the Army G3 signed a 90-day OBC interim policy which established criteria for newly commissioned LTs (excluding early commissioning program LTs) to begin OBC within 90 days of commissioning. NGB and AAC concurs
- TRADOC continues to explore other options to improve DMOSQ for RC Soldiers.

TASS Rebalance

- Factors influencing TASS Rebalance\Restructure:
  - GWOT
  - Changing force structure in RC
- Phased approach to implement mission rebalance from USAR to ARNG to reflect emerging changes in force structure and to relieve pressure on USAR TASS
- Workshop #2: 22-23 Feb 05

Reserve Component General Officer (RCGO) Conference

- Purpose: What is TRADOC is doing to help the RC train the force?
- 5-6 Apr 05, Founders' Inn, Virginia Beach, VA
- Official invitation memorandum sent 11 Feb 05.
- Agenda features working groups and presentations
- Visit www.tass.monroe.army.mil for the latest updates

CSA - Why reduce TXI?

- Warfighting expertise has moved from the schoolhouse to the unit, specifically to the recent combat veterans in those units
- The TXI Program was never intended to be a permanent program
- The Army needs the soldiers to fill UA's
- Reduce from 5,000 to 3,500
- Effective date on 31 March 05

FORSCOM Response

- FORSCOM, executive agent of the Title XI Program, has hosted a series of meetings/VTC with stakeholders (1st & 5th CONUSAs, USARPAC, TRADOC, USARC, and NGB) to discuss where the reductions would be taken.
- Commands worked to prioritize reductions, identify issues of loss in capability with and without mitigation
- FORSCOM is recommending to CSA eliminating all 303 TRADOC TASS TXI

TRADOC Response

- TRADOC non-concurs with FORSCOMs distribution of reductions
- TASSD prepared reclama draft for CG, TRADOC addressed to CSA
- What is TASSD doing?
  - Developing COAs
  - Partnering with RC to adjust program

FORSCOM Reduction Recommendation to CSA

		Current	Reductions	End State
FORSCOM		4542	1181	3361
	First Army	2488	594	1894
	Fifth Army	1800	364	1436
	USARC	254	223	31
TRADOC		363	303	60*
USARPAC		95	16	79
		5000	1500	3500

*** Sixty that remain are BCTP and NOT part of TRADOC TASS.**

V3

TXI Reductions EXSUM

- We've been told to "take a knee"…for our Soldiers not to contact their branch manager until a final decision is made on the cuts.
- Expect a decision by end-of-month March but it could come later. FORSCOM requested a graduated reduction over three years.
- This is only a request and discussions with HRC indicate that the intent is to move all TXIs from cut slots within a year of the cuts becoming effective.
- In the meantime, HRC is fulfilling Gen Shoomaker's guidance to fill TRADOC to 99% and will not release our TXIs for other assignments until the final cuts are released.
- Some Soldiers may come down on orders due to fulfilling their stabilization dates or to fill a critical GWOT need.
- Branch controls where and when you come down on assignment. HRD has little influence on this process.
- When a decision is made, you will receive guidance on the outcome and your next steps with regards to assignments.

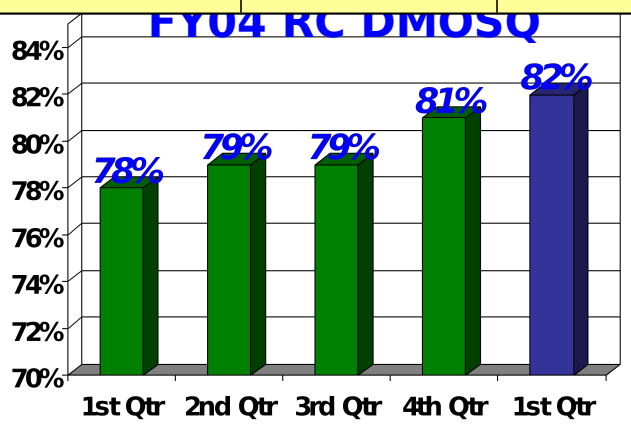
Helping Improve RC DMOSQ

Authorized (MTOE)	477,035	
Assigned	426,376	
DMOSQ	349,424	82%
NDMOSQ	76,938	18.04%
- Not Avail for Training • Soldier returns from AIT and unit has deployed, temporarily assigned to a non-deploying unit • Total Army Personnel Database entry lag (manual entry) • Pending Discharge	15,039	3.53%
- Initial Military Training	36,930	8.66%
- Reclass	15,418	3.62%
Actionable NDMOSQ	9,551	2.24%



- **RC DMOSQ improved by 7% since April 03**
- **Overall RC DMOSQ continues to improve during FY 05 (82%)**
- **Continue RC DMOSQ improvement:**
  - **Direct TATSC within 1 RC year**
  - **Conduct multiple starts per year**
  - **Reorganize/restructure TASS**
